

MAKE THINGS HAPPEN - THE RIGHT WAY!

SUSTAINABILITY AT AGGANCIO: REDUCING OUR ENVIRONMENTAL FOOTPRINT

Join us in this effort to reduce our footprint as professionals around the globe!

CONDUCT A WASTE ASSESSMENT

Regular waste assessments help to understand what, as an organization, you're using and how you can better **reduce** and **recycle**. Waste assessment is a visual analysis of waste in order to understand issues and create potential, applicable **solutions**.

THE PLASTIC BOTTLE CHALLENGE!

Every week that there are **zero** single-use plastic bottles used in the office, find a way to reward your team for taking a big step toward saving our planet.

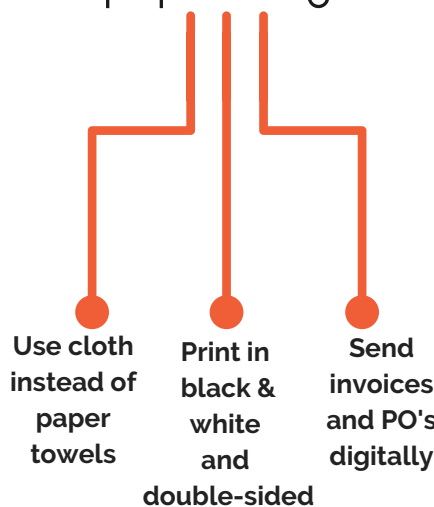

GO GREEN WHEN YOU TRAVEL

The most environmentally-friendly way to travel is to do it virtually! Conduct meetings via tele- or videoconference. Need to meet in-person? First choose a **bus**, then **train**, and then **air** travel as a last option.

 35% OF ELECTRICITY CONSUMPTION COMES FROM WASTED ENERGY.

MINIMIZE WASTED ENERGY BY GROUPING PLUGS INTO POWER STRIPS AND TURNING IT OFF WHEN NOT IN USE. INSTALL ENERGY EFFICIENT LIGHT BULBS AND TURN OFF THE LIGHTS WHEN YOU LEAVE A ROOM.

Save money and the environment by reducing paper usage

"The least we can do is as much as possible."

-Pär Holmgren
